HOTELERÍA

Tapizados en telas jackard de alto tránsito (colores a elección)

Soldaduras reforzadas indestructibles (con aporte de material)

Pintura epoxi en polvo bicapa horneada (el poliéster incoloro protege a la pintura ante el rozamiento)

Respaldo tapizado sin toma de tornillos a la vista

Espesor de caño de 1,22 mm, sección de 20x20 mm doblada con robot automático de control numérico (no produce hundimiento ni debilitación del material)

Espuma de poliéster de 28 kg/m³ indeformable

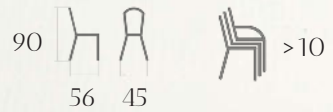

Sheraton
